

Climate Protection Certificate 2022

Duoplast AG

makes a significant contribution to climate protection through the participation in ERDE Swiss and the successful collection and recycling of silage films and bale nets in 2022.

By consigning these materials to recycling **1 454 tons of greenhouse gas** was reduced in absolute terms. This corresponds to the CO₂ emissions which **104 757 trees*** bind in Europe every year.

On behalf of the climate and the environment we say „Thank you“.
